Continuation Sheet | File No / Current No | of | Page

The city Municipal have also resolved unanimously on starting Milk Centres immediately and to constitute a fund called the "Milk Supply Fund" - Mercost - a provision of Rs 30,000/- in the Functional Budget of the Municipality for 44-45 for meeting the expenses on this behalf.

The proposal is for orders (Law Secy) 19/12

SECY LAW DEPT 5076 9/12/44 GOVT OF MYSORE

5 The Health Officer's Note gives full details. It may be mentioned that the success would mainly depend upon the assistance to feed the children in the centres. Milk should not be allowed to be taken away. This as observed it will lead to misuse as was noticed in Mysore.

6 The proposal may be sanctioned & covered by a year.

19-12

OFFICE MINISTER FOR FOOD & LAW 20 DEC 1944 No 745

The proposal is to spend roughly Rs 17,000/- on each Centre per year. The expenditure under this heads should be Contributorily realised Volunteer help should be enlisted but a nucleus of b/s staff for each Centre is necessary As much as possible should be spent on milk but less on this expenditure milk should be supplied to deserving poor children below 5 years of age and expectant & nursing mothers from about the fourth month of pregnancy to until six months after delivery The scheme may be tried in the three Centre, proposed for about six months or till the close of the financial year, whichever is earlier If the experiment prove successful the municipality may make a provision under this head in the budget for 45-46 In addition, donations from public should be invited

SIR

Re Opening of Milk Centres in the Bangalore City

I have the honour to state that the question of opening Milk Centres for the benefit of Poor children was under the consideration of this Municipality for a long time A sum of Rs 30 000/- has been provided for the purpose under F3-C

The Health Officer submitted proposals involving an ~~annual~~ expenditure of P 17,000/- for each centre These proposal were approved by the Municipal Council at their meeting held on 15-12-1944 They have resolved that three centres might be opened immediately and that a fund called MILK SUPPLY UND be started with the help of the public donations~~, the~~ and the Centres may be increased later

A copy of the Council resolution together with a copy of Health Officer's note is herein forwarded for favour of obtaining sanction of Government to the resolution of the counci

I have the honour to be,
Sir,
Your most obedient servant,

R Suryanarayana

MUNICIPAL COMMISSIONER

MILK CENTRE.

In the present abnormal conditions when food is scarce, it is not possible to supply the required quantity of food to each individual Want of proper food and nourishment have their own repercussions on health But the worst sufferers are the children Children thrive on milk which is a perfect food, containing all the proximate principles of food required for the development of the body Along with the scarcity of cereals and pulses, milk has also become scarce, with the result unscrupulous people are taking undue advantage of the present condition and adulterating the milk with water in various proportions, the amount of adulteration varying from 10% to 90% of water When milk is adulterated, the ingredients are also diminished in quantity, bulk for bulk

It is the duty of the Municipality to see that the children below 18 months of age, get adequate quantity of milk of proper quality per day In this respect the children of the poor do deserve help The rich can somehow manage but not the poor With this laudable idea in view the Municipal Council have sanctioned a sum of Rs 50,000/- to start milk centres in convenient places in the city where the poor class of people reside We are assured of a continuous supply of adequate quantities of milk of proper quality by the proprietors of the City Milk Supply and Fresh Milk Supply

The scheme is, for the present, to start three centres, one at Belimutt Creche (III Division), One at Hindustani School (II Division) and another in the Gopalakrishnaswamy Temple for the benefit of the IV & V Divisions The admission is limited to one hundred children in each centre in the first instance The milk is boiled and sweetened with sugar, one quarter seer being given to a child in the morning, to be given in two feeds one at the centre and

and the other at the house, thus one can be sure that the child gets the benefit of the benevolence of the Municipality The milk is given either pure or diluted with water depending on the age and condition of the child, the dilution to be prescribed by a doctor Once this is done, it is easy for a nurse to dole out milk and maintain the record

The dilution of milk must be done by paid agency apart from the help of voluntary workers The staff necessary for each centre is -

1	One midwife or nurse at Rs 30/- + 3/- P M or	Rs	1080/- Per annum
2	One ayah at Rs 12/- P M		432/- "
3	One servant at Rs 12/- P M		432/- "
4	Vessels and utensils (lumpsum)		750/- "
5.	Charcoal stoves etc ,		150/-
6	Furniture,		500/-
7	Stationery etc ,		500/-
8	Milk		12000/-
9	Recurring Charges,		2594/-
10	Non-recurring charges		1250/-
11	Miscellaneous (not included above)		1168/-
	Total	Rs	17,000/-

I am confident that the scheme can be worked out successfully to the benefit of the poor children and I may say that this is absolutely necessary particularly during the present crisis

A similar scheme of distribution of milk obtains in Mysore under the Gunamba Trust The success of this scheme can be judged by the popularity the institution has gained and the number of centres recently opened to meet the demands of the poor This Institution started several years ago, with one centre in Vanivilas Road has at present seven centres, one in each Mohalla I am assured that if donations are called for it will be forthcoming in an abundant measure I strongly commend this scheme to the Council

of pregnancy until six months after delivery. The scheme may be tried in the three centres proposed for about six months or until the close of the official year, whichever is earlier. If the experiment proves successful, the Ml Cl may make a liberal provision in the Budget under this head for the year 1945-46.

2. The starting of "the Milk supply Fund" is also sanctioned. Donations from Public should also be invited, in addition to the amount received in this behalf should be credited to the Fund.

3. The Ml Commr is requested to forward a report to Govt at the end of June 1945 as to how the scheme has
